PATYKA'S R&D LABRATORY

PATYKA owns all of their formulas, developed by their research & development labratory, at the forefront of cosmetic and organic innovation.

PATYKA creates patented and efficacy-proven active ingredients, used in high concentration in its formulas.

PATYKA guarantees the traceability of its ingredients, thanks to a precise control of its supply in raw materials.

CLEVER, ECO-FRIENDLY PACKAGING

PATYKA has invented and patented a unique origami box that does not need any glue, uses paper from sustainably managed, FSC certified forests and is printed using vegetable-based inks to facilitate recycling.

Most packaging are made of glass: a 100% recyclable material.
