pioneers

defining 'clean beauty' since 2002,
ere perez fuses australian beginnings
and mexican heritage into **cruelty**
free, high-performing skincare and
makeup.

inspired by nature and science,
to deliver exceptional results and
celebrate the beauty you were
born with. crafted in **sustainable**
packaging, with sensitive safe
formulas, we are beauty made better.

about us

Defining 'clean beauty' since 2002, Ere Perez fuses Australian beginnings and Mexican heritage into high-performing skincare and makeup.

Inspired by nature and science, our innovative beauty essentials enhance your ageless beauty with result-driven formulas, no matter your skin type.

From our cocktail of powerhouse botanicals, to the world first natural waterproof mascara and earth-conscious mono-element packaging, Ere Perez clean and cruelty free beauty products help nurture sensitive skin and celebrate the beauty you were born with.

"We offer fuss-free, innovative daily essentials that deliver affordable, high-performance results, meeting modern beauty standards. Consciously creating ethical beauty products for you and the earth, we didn't just embrace clean beauty. We defined it."

- Ere, Founder & Creative Director

values

Our products are not tested on animals and none of the ingredients in our formulations are required to undergo animal testing. We are certified cruelty free by PETA and Choose Cruelty Free Australia.

We are a predominantly vegan brand and do not use animal-derived ingredients with the exception of almond mascara which contains beeswax.

Our ingredients do not come from GMO sources.

We are signatories of the UN Global Compact and are committed to corporate sustainability principles regarding human rights, labour, environment and anti-corruption.

Ere Perez supports the sustainable production of palm oil by purchasing credits that supports these practices. Our tinted mascaras contain sustainably-sourced palm oil.

We are certified carbon neutral by The Carbon Reduction Institute. All greenhouse gas emissions are offset by funding carbon-neutral energy initiatives.

eco commitments

Creating refillable products, including transitioning to plastic free refills.

Creating multi-tasking products that save resources & materials.

Items designed with as minimal impact on the environment as possible.

Working towards the use of PCR plastics as much as possible.

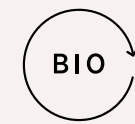

Replacing plastic in product packaging with infinitely recyclable materials.

Use of mono materials, for easier dismantling and infinite recycling.

Avoiding ingredients that are rare or under threat from over-production.

Use of 100% plant-based materials or PLA (bio-based plastic).

eco commitments

our mission is to inspire you to make more conscious lifestyle choices for your health and the planet. by creating clean and nutritive collections based on sustainable principles, we are the natural 'guilt-free' choice in beauty.

we are pioneers of ethical beauty. we didn't join the clean beauty revolution, we started it.

Our legacy

We take our legacy seriously as pioneers of natural beauty since 2002. To lead by example so our customers & other brands can follow.

Our eco-lution

We acknowledge this process takes time and we are fully invested in being the 'guilt free' choice in beauty. We question every decision to initiate the best solution. We are a brand in motion, constantly re-evaluating so we can minimise our environmental footprint.

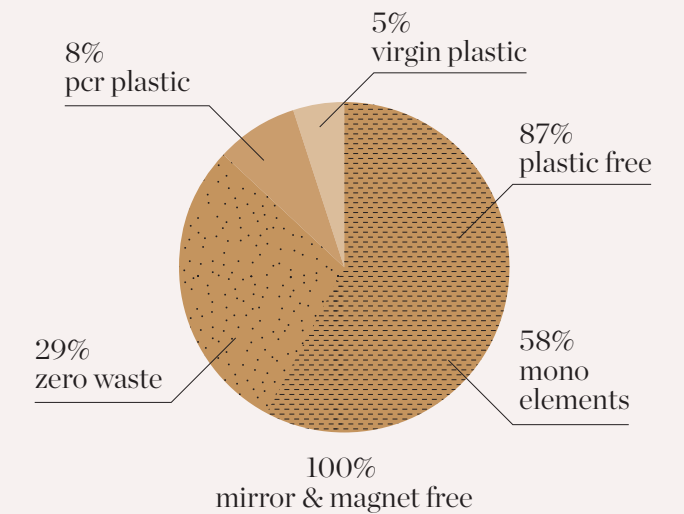

Our packaging

Our packaging has evolved over time and many decisions - both big and small - have been made to make us more earth-friendly. With more refillable options, sustainable materials, and innovative solutions. Currently, 23% of our packaging can be infinitely recycled. 14% of our products are zero waste.

Our future

We are committed to assessing existing products and future creations for their eco credentials. These are our sustainability goals, by 2024 we aim to be:

- 87% plastic free
- 50% recyclable
- 26% refillable
- 24% reuseable

Powerhouse botanicals for a good skin day

Essential skincare range featuring powerful & nourishing botanical ingredients. Ultimate hydration, protection & repair with natural formulas that promote healthy skin. Harnessing nature's best to deliver radiant complexions.

WHAT YOU'LL LOVE

- Multitasking makeup remover
- Dry jelly or milky cleanser
- Leave-on & rinse-off mask
- Locks in hydration. Ideal for slugging!

GOOD TO KNOW

- Gel
- Botanical
- Cleansing
- Hydrating
- Multitasking

- HERO INGREDIENTS -

fig

Hydrating & rich in antioxidants.

sunflower

High in vitamin A & healthy fats.

chamomile

Soothes sensitivities & combats free radicals.

clove

Antiseptic, antibacterial & boosts circulation.

cleanse, mask, treat

A skin-loving, all-purpose jelly to cleanse and hydrate. Gently melts away all traces of makeup and impurities, including eye makeup. Use dry as a cleanser or add water to create a soothing cleansing milk. Leaves skin soft and clean without feeling stripped.

Wear the jelly overnight as a mask to lock hydration. With a botanical formula of natural ingredients perfect for even the most sensitive complexions.

The ultimate safe jelly, a natural alternative to petroleum jelly with no nasty ingredients. Ideal for 'slugging', but healthier. This is the all-purpose jelly your skin's been dreaming of.

SKU e285b
Made in France
65ml / 2.3oz PET recyclable plastic tub
Expiry 6m after opening

PRODUCT BENEFITS

- Locks in hydration
- Multitasking makeup remover
- Dry jelly or milky cleanser
- Leave-on & rinse-off mask
- Ideal for slugging
- Safe mild formula

HOW TO APPLY

To cleanse:

1. Apply a pearl-size amount to skin & massage gently to remove makeup.
2. Wipe skin clean with a wet face towel
3. Or add water to jelly for a cleansing milk. Rinse off with water.

To mask:

1. Apply as your final beauty step at night
2. Smooth a pea-sized amount to skin after moisturiser/serums.
3. Wear to bed and wake up with soft supple skin.
4. You can also wear as a mask to cleansed skin for 15 minutes and massage skin with our Quartz Lift & Sculpt Face Stone. Then rinse off with warm water.

HERO INGREDIENTS

Fig fruit extract - Native to the Mediterranean and western Asia, fig trees have been cultivated since ancient times.

- High in antioxidants, B-complex vitamins, vitamin C & essential minerals
- Great for oily & sensitive skins
- Increases hydration, helps reduce dryness & redness
- skin brightening abilities
- Can promote collagen production reducing the appearance of wrinkles

Clove flower oil - Native to Indonesia and cultivated in other tropical regions, the evergreen clove trees can grow up to 20m tall. The flowers are steam distilled to produce clove oil.

- Clove oil's main component is eugenol, known to have natural antiseptic & analgesic properties
- An astringent which helps tightens skin pores
- Acts as a tonic, highly soothing for skin
- Contains rejuvenating properties
- Increases blood flow to the skin giving a radiant effect

Chamomile oil - Extracted from the flowers of the traditional medicinal herb originating in Europe, India and Asia.

- Natural anti-inflammatory & antibacterial properties creating a calming effect
- Evens skin tone & regenerates skin
- Soothes redness, promoting smooth healthy skin
- Protects from bacteria

Sunflower oil - Pressed from seeds of the sunflower, native to North America.

- Contains unsaturated linoleic & oleic fatty acids, skin-conditioning agents & vitamin E
- Anti-inflammatory, antioxidant
- Improves skin health
- Hydrates & increases circulation & promotes cell regeneration
- Helps pigmentation, reduces inflammation
- Effective for skin disorders like acne & eczema

ALL INGREDIENTS

Helianthus annuus (sunflower) seed oil, caprylic/capric triglyceride, glycerin, aqua (water), sucrose palmitate, sucrose stearate, ficus carica (fig) fruit extract, anthemis nobilis (chamomile) flower oil, eugenia caryophyllus (clove) flower oil, tocopheryl acetate (vitamin E).

WHAT YOU'LL LOVE

- A botanical balanced tonic
- Featuring hyaluronic acid
- All-day refreshment
- Apply under or over makeup

GOOD TO KNOW

- Liquid
- Botanical
- Hydrating
- Toning
- Balancing

- HERO INGREDIENTS -

geranium

Pumps water into dry skin cells, rich in antioxidants. Evens skin tone. Decreases scarring & blemishes.

green tea

Rich in antioxidants, prevents free radical damage & fights signs of ageing.

grapeseed oil

Deeply moisturising, high in antioxidants, vitamins C & E. Brightens complexion. Perfect for oily & sensitive skin.

witch hazel

Balances pH & tightens skin. Fights free radicals & minimises pores. Reduces puffy eyes.

refreshing hydration mist

Not only is this tonic a daily beauty routine essential, but it works to revive your skin throughout the day and can be applied under or over makeup for a dewy hit of refreshment.

This herbal blend is full of natural skincare superstars including green tea leaf extract - full of antioxidants, antibacterial, anti-inflammatory and anti-ageing properties. It also features superpower ingredients for lasting moisture, collagen promotion and protection from UVB rays.

SKU e321b
Made in Australia
100ml / 3.3oz Glass spritzer bottle
Expiry 6m after opening

PRODUCT BENEFITS

- A botanical balanced tonic
- Enriched with green tea, mandarin, geranium & rosemary
- Featuring hyaluronic acid
- All-day refreshment
- Apply under or over makeup
- Helps absorb oils and balance skin pH

HOW TO APPLY

1. Spray bottle approximately 20cm away from your face.
2. Allow to dry if applying on top of makeup.
3. If applying under makeup, either allow to dry, or apply serum directly after (we recommend our Quandong Green Booster Serum).

TOP TIPS

If spraying causes any discomfort, spray the product onto a cotton pad then wipe around the face.

HERO INGREDIENTS

Mandarin cold-pressed oil - From the fruit originating in South-East Asia & the Philippines.

- Anti-bacterial, high in antioxidants & vitamins C, B & E
- Improves condition & tone of skin & brightens
- Has calming & healing properties
- Minimises age spots & discolouration, treats scars
- Neutralises free radicals & fine lines

Geranium oil - Made from the leaves of the geranium flower found in the Mediterranean region.

- Anti-inflammatory, anti-ageing, pumps water into dry skin cells, provides antioxidants
- Hydrates and helps tighten skin
- Fights free radicals
- Decreases scarring and blemishes
- Promotes good circulation and healthy skin cells
- Gives the appearance of soothed, tight-looking skin

Rosemary leaf oil - Extracted from the leaves of the herb originating in the Mediterranean region.

- Anti-inflammatory, antiseptic, anti-bacterial
- Tones & firms the skin
- Soothes any infections
- Balances natural oils

Green tea leaf extract - distilled from leaves of the camellia sinensis plant, originating in China but widespread throughout Asia.

- Astringent properties, antibacterial and anti-inflammatory, full of antioxidants
- Prevents free radical damage & fights signs of ageing
- Encourages healing. Reduces skin disorders.
- Encourages healthy, youthful skin with visibly clearer pores

ALL INGREDIENTS

Aqua (water), glycerin, caprylyl/capryl glucoside, citrus nobilis (mandarin orange) cold pressed oil, pelargonium graveolens (geranium) flower/leaf/stem extract, aloe barbadensis (aloe vera) leaf juice powder, rosmarinus officinalis (rosemary) leaf oil, camellia sinensis (green tea) leaf extract, vitis vinifera (grape) seed oil, hamamelis virginiana (witch hazel) leaf extract, lactic acid, sodium benzoate, citric acid, potassium sorbate, polyglyceryl-5 oleate, sodium cocoyl glutamate, glyceryl caprylate, sodium hyaluronate, *geraniol*, *limonene*, *linalool*.

WHAT YOU'LL LOVE

- Promotes supple skin
- Calms inflammations
- Balances oily or acne-prone skin
- All skin types, suits sensitive skin

GOOD TO KNOW

-  Serum
-  Botanical
-  Hydrating
-  Balancing
-  Nutritive

- HERO INGREDIENTS -

hyaluronic acid
Keeps skin hydrated & helps diminish fine lines.

desert fruit quandong
Twice the vitamin C of oranges to encourage a youthful glow.

lactic acid
Powerful AHAs to promote skin renewal & collagen production.

green boost
Chlorophyll, spinach leaf, vitamin E, alfalfa & raspberry seed delivers enzymes & vitamin A straight to the skin.

superfood for supple skin

Boost your skin with this highly nutritious green smoothie for the face. An antioxidant-rich blend of superfood ingredients to support a healthy, glowing complexion. Formulated with desert fruit quandong (twice the vitamin C of oranges) to reduce signs of lines and calm inflamed skin. We've added chlorophyll, spinach leaf, vitamin E, alfalfa and raspberry seed to powerfully deliver essential enzymes and vitamin A straight to the skin. This serum helps improve skin elasticity and improves dryness – a little goes a long way! The best green boost you can give your skin.

SKU e325b
Made in Australia
30ml / 1oz Glass bottle + dropper
Expiry 6m after opening

PRODUCT BENEFITS

- Enriched with quandong, chlorophyll and spinach
- Boosts, supports, nourishes
- Hydrating texture
- Non-oily serum, easily absorb into skin

HOW TO APPLY

1. Gently rub 2-4 drops of serum into face, neck and décolletage after cleansing and toning.
2. Follow with moisturiser such as our Australian Blue Cypress Face Nectar or Moringa All-beauty Crème.
3. Use morning and night.

HERO INGREDIENTS

Quandong extract – From the fruit native to central and southern desert of Australia. *Fun-Fact:* Quandong has the second highest level of antioxidants in all fruit!

- Contains antioxidants, vitamins C, E, magnesium, folate, & phenolic acids, plus essential fatty acids
- Anti-inflammatory, antimicrobial
- Fights free radicals, protects skin from the elements while reducing inflammation
- Excellent source of hydration, encourages youthfulness
- Rejuvenated, soothes and brightens skin

Chlorophyll – Green pigment naturally occurring in plants.

- Contains antioxidants, vitamins A, C, E, K & magnesium
- Detoxifies skin, combats free radicals
- Anti-inflammatory, tightens skin
- Boosts the circulation of oxygen, anti-ageing
- Soothes fragile & sensitive skin
- Reduces breakouts & inflammation
- Reduces sun damage, assists to lighten age spots
- Gives a glowing radiant, healthy complexion

Hyaluronic acid – Naturally derived from a corn-based fermentation process. *Fun-Fact:* We are born with large amounts of hyaluronic acid in our skin, but it decreases as we age. Replacing hyaluronic acid helps to reduce the signs of ageing by plumping the skin with moisture.

- Humectant (moisture-binding ingredient)
- Promotes collagen production
- Keeps skin hydrated
- Improves skin's elasticity, health and texture
- Increases sun protection
- Improves tone and suppleness of skin, anti-ageing
- Gives skin appearance of youthful plumpness & fullness

ALL INGREDIENTS

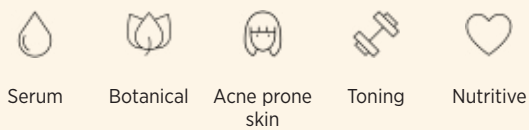

Aqua (water), glycerin, levulinic acid, sodium levulinate, santalum acuminatum (quandong) fruit extract, medicago sativa (alfalfa) leaf extract, rubus idaeus (raspberry) seed oil, spinacia oleracea (spinach) leaf extract, simmondsia chinensis (jojoba) seed oil, helianthus annuus (sunflower) seed oil, chlorophyllin-copper complex, lactic acid, p-anisic acid, sodium hyaluronate, resveratrol, caprylhydroxamic acid, tocopherol (vitamin E), xanthan gum.

WHAT YOU'LL LOVE

- Hydrates & plumps
- Boosts collagen & elastin
- Helps blemishes & acne
- Botanical retinol alternative

GOOD TO KNOW

- HERO INGREDIENTS -

niacinamide
Helps improve blemishes & acne.

our most 'active' skincare product!

This botanical vegan retinol alternative is a game-changer. It tightens and lifts, but won't leave your skin feeling stripped or irritated like other anti-ageing retinol formulas that can be too strong for many complexions. It's fast-absorbing, lightweight and loaded with actives and plant-derived goodness in every drop. Let this potent elixir work its magic overnight and wake up to firm youthful skin.

SKU e326b
Made in Australia
30ml / 1.1oz Opal glass bottle + dropper
Expiry 6m after opening

PRODUCT BENEFITS

- Non-irritating
- Effective on all types of skin include sensitivities
- Great ingredients for problematic skin and acne
- Entry level retinol
- Wear overnight for softest skin

HOW TO APPLY

1. Gently rub 3-4 drops of elixir into face neck and décolletage after cleansing
2. Follow with wild tomato riche crème.
3. Use in the evening to maximise benefits.
4. Avoid eye area.

TOP TIPS

For a flawless & luminous look, you can add a drop to your foundation and apply to face.

ALL INGREDIENTS

Aqua (water), glycerin, niacinamide (vitamin b3), pentylene glycol, panthenol (vitamin b5), pantolactone, 3-aminopropan-1-ol, sodium hyaluronate, acacia senegal gum, xanthan gum, cocoyl proline, camellia sinensis (white tea) leaf extract, bakuchiol, resveratrol, lactic acid, gluconolactone, copper gluconate, thioctic acid, glyceryl caprylate, squalane, sodium hydroxide, calcium gluconate, hydroxyacetophenone, sodium benzoate.

HERO INGREDIENTS

White tea leaf extract – Made from leaves of Camellia Sinensis - extraction is through a cold process to retain and ensure its effectiveness giving it a higher antioxidant value.

- High amounts of phenols for strengthening collagen & elastin
- Natural antioxidant, anti-inflammatory, anti-ageing
- Can help treat & prevent fine lines, wrinkles, inflammation, hyperpigmentation & dehydration
- Enhances overall health & appearance of skin

Bakuchiol – An oil extracted from seeds & leaves of the Psoralea corylifolia plant (or babchi plant). It's been found in Ayurveda & Eastern medicine for centuries.

- A potent antioxidant, protects against free-radical damage
- Soothing properties, a good for sensitive or reactive skin
- Can help renew collagen & improve skin tone & texture
- Smooths fine lines & wrinkles, improves skin elasticity
- Can help with pigmentation

Copper gluconate – An essential trace mineral found in many foods & supplements.

- Odourless light blue/blue-green crystal or powder
- Has natural astringent properties to tighten pores
- Stimulates skin rejuvenation, natural collagen & elastin production, reduces fine lines
- Anti-inflammatory & antioxidant
- Detoxifies & purifies skin, draws excess oils from pores to help minimise breakouts & control natural sebum levels
- Improves skin firmness & smoothness

Resveratrol – naturally occurring antioxidant found in the skin of grapes, peanuts, all berries, & even dark chocolate.

- Antioxidant, anti-inflammatory
- Promotes suppleness, enhances firmness, improves elasticity
- Protects & hydrates, safe for all skin types
- Helps smooth fine lines & wrinkles, slows ageing
- Calming - helps minimise skin inflammation & redness
- Brightens & evens skin tone, improves overall texture

Niacinamide (vitamin B3) – Sourced as nicotinic acid in plant-based foods like nuts, seeds, and green vegetables.

- Helps repair skin cell damage, strengthens skin barrier
- Hydrates, treats hyperpigmentation, promotes skin elasticity, decreases redness & blotchiness
- Excellent antioxidant, fights free radicals
- Brightens & evens skin tone
- Reduces appearance of fine lines & wrinkles
- Helps improve blemishes and acne-prone skin

WHAT YOU'LL LOVE

Light, everyday face nectar
Perfect for dry, sensitive skin
Ultra-hydrating and brightening
For all faces and skins

GOOD TO KNOW

- HERO INGREDIENTS -

australian blue cypress

Antibacterial, anti-inflammatory & hydrating. Soothes dry skin. Calms sensitivities.

camellia

High in vitamins A, B & D plus omegas 3, 6, & 9. Packed full of antioxidants.

cedarwood

Antiseptic, cleanses skin & reduces toxins.

frankincense

Strengthens skin, improves elasticity & tone. Reduces skin imperfections.

awaken to glowing skin

Light everyday nectar to revitalise and radically hydrate your skin. Powerful botanical oils deliver a lifting glow and dewy complexion in just a few drops. Non-oily formula features natural antioxidants, calming anti-inflammatory properties and omegas to intensely nurture skin. Aims to reduce the signs of dehydrated or stressed skin.

Prime your face for makeup with this delicious formula that encourages a radiant complexion. We lovingly made this nourishing nectar for everyone. Use day and night for best skin radiance.

SKU e327b
Made in Australia
30ml / 1oz Glass bottle + dropper
Expiry 6m after opening

PRODUCT BENEFITS

- Enriched with australian blue cypress, camellia, jasmine flower, jojoba, cedar wood & rice
- Non-oily formula
- Revitalises, hydrates, nurtures
- Youthens complexion
- Creates a dewy complexion

HOW TO APPLY

1. Gently rub 2-4 drops of nectar together in the palm of your hand to warm.
2. Apply evenly with fingertips to face, neck and décolletage morning and night.

TOP TIPS

For a flawless & luminous look, you can add a drop to your foundation and apply to face.

HERO INGREDIENTS

Australian blue cypress oil – produced via steam distillation from the wood of the tree indigenous to Australia.

- Antibacterial, anti-inflammatory
- Hydrating – deeply moisturises and soothes dry skin
- Calms sensitivities and soothes complexion

Camellia oil – from the plant traditionally found in China and Japan. *Fun-Fact:* Camellia oil absorbs so quickly into the skin because its molecular weight is a near-match to that of human skin!

- Contains oleic acid, vitamins A, B, D, omegas 3, 6, 9 and more naturally occurring antioxidants than almost any other botanically-derived oil
- Super moisturising, does not clog pores, creates a non-greasy, silky texture
- Protects skin from free radicals & environmental pollutants

Frankincense oil – sourced from the Boswellia tree common in India & Somalia.

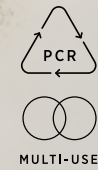

- Contains anti-inflammatory, immune-enhancing properties, anti-ageing
- An astringent which improves tone and elasticity, strengthening skin
- Reduce skin discolouration & imperfections
- Heals dry cracked skin, reduces inflammation
- Reduces appearance of scars and blemishes
- Gives a tightening effect for younger looking skin

ALL INGREDIENTS

Caprylic/capric triglyceride, vitis vinifera (grape) seed oil, oryza sativa (rice) bran oil, simmondsia chinensis (jojoba) seed oil, camellia oleifera (camellia) seed oil, tocopherol (vitamin E), callitris intratropica (australian blue cypress) wood oil, cedrus atlantica (cedarwood) wood oil, jasminum sambac (jasmine) flower extract, frankincense (boswellia carteri) oil, *eugenol, geraniol, limonene, linalool.*

50ml / 1.76oz PCR tube
Expiry 6m after opening

PRODUCT BENEFITS

- Enriched with moringa, apricot kernel and prickly pear
- Light texture
- Moisturises, soothing dryness
- Gentle on sensitive skins
- Satin, glowing finish
- Perfect prep for makeup

HOW TO APPLY

1. Apply daily to cleansed and dry skin.
2. Using fingertips, gently rub into the face in round motions to stimulate circulation.
3. Continue down the neck and décolletage to maintain skin suppleness.
4. Apply morning and night for luminous skin.

moringa
all-beauty crème

HERO INGREDIENTS

Moringa seed extract - from the seeds of the moringa or 'drumstick tree', widely cultivated in parts of Africa and Asia. Used in traditional herbal remedies for centuries.

- Contains vitamins A, E, oleic acid and 30 known antioxidants
- Anti-ageing, anti-inflammatory and antiseptic
- Encourages skin cell renewal and youthful skin
- Protects against free radicals
- Hydrating, cleansing and detoxifying

Melissa extract - from the roots/flowers/stems of the plant, belonging to the mint family. Used since Ancient Greek and Roman times, also known as lemon balm.

- Antioxidants, anti-inflammatory, antibacterial
- Contains caffeic acid, ferulic acid & flavonoids
- Calms, cleanses and tightens skin
- Fights UV damage
- Stimulates healing and circulation
- Protects against environmental stressors

Prickly pear oil - extracted from small black seeds of the cactus, native to North & South America and Mexico.

- Contains essential fatty acids, antioxidants, vitamins E, K, A and 60.5% linoleic acid
- Lightweight, fast-absorbing, anti-inflammatory
- Moisturises, softens and brightens skin
- Stimulates cell growth
- Nourishes and repairs, stimulates collagen production
- Brightens under eye circles, treats pigmentation

ALL INGREDIENTS

Aqua (water), helianthus annuus (sunflower) seed oil, dicaprylyl carbonate, caprylic/capric triglyceride, melissa officinalis (lemon balm) flower/leaf/stem extract, sodium acrylate/sodium acryloyldimethyl taurate copolymer, glycerin, opuntia ficus indica (prickly pear) seed oil, prunus armeniaca (apricot) kernel oil, centaurea cyanus (cornflower) flower water, daucus carota sativa (carrot) root extract, moringa pterygosperma (moringa) seed extract, xanthan gum, citric acid, caprylyl/capryl glucoside, sucrose laurate, sucrose stearate, polyisobutene, sorbitan oleate, dehydroacetic acid, glycine soja (soybean) oil, lactic acid, maltodextrin, tocopherol (vitamin E), sodium hydroxide, sodium citrate, benzyl alcohol, CI 77492 (iron oxide), aroma (100% natural fragrance), linalool, limonene, citronelle.

A deeply hydrating multi-use crème with a buttery texture that melts into skin. Lusciously restorative and rejuvenates all skins and ages. So velvety as a rich moisturiser and doubles as a hydrating face mask. Delicate enough for daily wear and thick enough to be your new night cream.
 100% Plastic free, with an opal white glass jar & aluminium lid. Even the protecting insert is made from aluminium!
 This is a sustainable crème that loves the earth & your skin.

SKU e333b
 Made in France
 45ml / 1.58oz Glass jar + aluminium lid
 Expiry 6m after opening

PRODUCT BENEFITS

- Lavender + cacao seed butter improve skin texture
- Chamomile oil with polyphenols to help reduce signs of stress
- Vitamin E offers supreme hydration & nourishment
- Tomato seed oil with lycopene to heal dryness, encourage smooth skin & assists in combating pigmentation
- Deeply nourishing night cream
- Quenches dry skin during the day
- A little goes a long way!

HOW TO APPLY

1. Apply daily to cleansed and dry skin.
2. Using fingertips, gently rub into the face in round motions to stimulate circulation.
3. Continue down the neck and décolletage to maintain skin suppleness.
4. To use as a night cream apply a thick layer as your final skincare step in the evening.

TOP TIPS

Only a very small amount is needed when applying.

HERO INGREDIENTS

Tomato seed oil - Made from pressing the pomace of tomatoes to extract oil from the seeds.

- High in soothing lycopene, fatty acids & vitamins A & C
- Helps with the smoothness of skin & can help against hyper-pigmentation
- Antioxidant, antiseptic, anti-ageing
- Rich in antioxidants that fight free radicals
- Encourages youthfulness, improves skin elasticity
- Hydrating, helps heal dryness
- Queen of antioxidants

Cocoa seed butter - From tropical evergreen trees (family Malvaceae) grown for edible seeds, whose scientific name means "food of the gods" in Greek. A natural fat derived from cacao beans. Production process includes harvesting, cleaning, roasting, & crushing cacao beans which are then ground into cocoa liquor & pressed to produce fat (butter).

- Heals dry & damaged skin
- Keeps skin supple & moist
- Nourishing, super-hydrating
- Improves skin texture

Hyaluronic acid - Delivers lasting moisture, a humectant (moisture-binding ingredient), protects the skin from UVB rays, promotes collagen production.

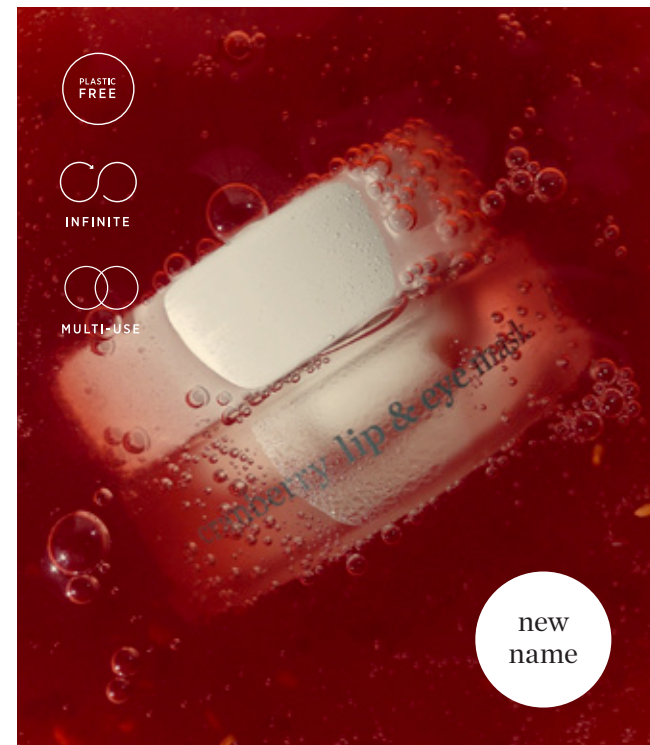

- Keeps skin hydrated
- Diminishes fine lines
- Improves elasticity & skin health
- Improves skin tone & suppleness

Lavender oil - Highly versatile oil typically extracted from the flower spike of certain species of lavender.

- Calming, soothing, promotes relaxation
- Has antiseptic properties
- Can assist with blemishes
- Assists with dryness

ALL INGREDIENTS

Aqua (water), helianthus annuus (sunflower) seed oil, caprylic/capric triglyceride, glycerin, theobroma cacao (cocoa) seed butter, glyceryl stearate citrate, cetyl alcohol, glyceryl stearate, pentylene glycol, glyceryl dibehenate, tribehenin, solanum lycopersicum (tomato) seed oil, lavandula angustifolia (lavender) oil, anthemis nobilis (chamomile) flower oil, citric acid, xanthan gum, glyceryl behenate, tocopherol (vitamin E), chlorphenesin, sodium hydroxide, sodium hyaluronate, allantoin, sodium citrate, CI 77491, CI 77492 (iron oxides), *linalool*, *limonene*.

rejuvenate and hydrate delicate skin

This lip and eye care essential works as a daily eye cream before your skincare or makeup routine. Or it can be applied generously as a mask to nourish and moisturise overnight.

Formulated with lactic acid and nourishing botanicals such as shea butter, cranberry and cucumber, this natural mask plumps and stimulates skin cell growth around the delicate lip and eye area, minimizing fine lines while protecting against environmental stressors.

SKU e335b
Made in Australia
10ml / 0.35oz Glass jar + aluminium lid
Expiry 6m after opening

PRODUCT BENEFITS

- Moisturises, regenerates
- Rich formula, gentle on sensitive skin
- Includes cranberry fruit, cucumber and lactic acid

HOW TO APPLY

1. On clean, dry skin, gently press mask around the lips and eye areas until absorbed
2. Use overnight for intensive hydration, or for 10 minutes before your skincare or makeup routine
3. For best results, apply before your favourite serums and/or moisturisers for optimal absorption!

TOP TIPS

Apply sparingly for a light layer or generously for a more intense mask.

quartz
sculpt & lift face stone

a natural facial lift!

A beauty tool with ultimate therapeutic benefits. This face massage stone encourages radiant, healthy skin. Crafted with authentic clear quartz, the luxurious tool adjusts to the natural contours of your face to sculpt and lift. By gently massaging over your skin, it stimulates lymphatic drainage and kickstarts micro-circulation.

Based on the Chinese technique of Gua Sha, make this part of your beauty routine and receive countless benefits as you ease facial tension and minimise fine lines. Gua Sha is known to decrease puffiness, promote anti-ageing, improve elasticity, oxygenate skin, detoxify and rebuild collagen. You can give yourself a natural instant facial lift!

Results are visible with regular use. You will notice dewy youthful skin and the self-massage can become a relaxation ritual. Includes a cotton carry pouch to keep your stone clean and protected.

SKU e348b
Made in China
100% Quartz

PRODUCT BENEFITS

- Adjusts to natural contours of face
- Stimulates lymphatic drainage
- Kickstarts micro-circulation
- Cruelty free, vegan

TOP TIPS

- We recommend using your face stone daily for 1 minute, and once a week for 3-5 minutes.
- We recommend using with application of our Australian Blue Cypress Nectar, Cranberry Lip & Eye Butter, Papaya SOS Marmalade or Fig All-beauty Jelly.
- Apply light pressure over the face to avoid bruising.
- You may appear blushed on your cheeks, meaning the process is working.
- Place tool in fridge before use for a great cooling effect on skin.

HOW TO USE

This face stone works by pressing and stroking against your skin in sweeping movements.

1. Cleanse face and hands. Apply serum or natural oil to your face and neck to help stone glide over skin.
2. **Forehead:** sweep the stone up from the start of your eyebrows out to the hairline. Move up the forehead and repeat.
3. **Under eyes:** sweep from the inner corner of the eye to the hairline.
4. **Cheekbones:** sweep underneath your cheekbones, and direct it toward your hairline.
5. **Lips:** Glide over your lips back and forth 6 times.
6. **Jawline & Chin:** glide the stone upwards from the centre of your chin, out to the ears to contour the jaw.
7. **Neck:** when you've finished the face, sweep from under the chin down the neck to continue the drainage process. Move around, in downward motions, each time starting at the top, until the whole neck has been done.

effortless sun-kissed radiance

Boost skin radiance, effortlessly, with cacao bronzing pot. A skin-like natural formula that gives your complexion the most natural of glows, without the shimmer. Featuring hydrating cacao and shea butter to nourish all skin types, for a smooth all-over face bronzer. The mousse-like texture is lightweight, buildable and error-proof leaving a gorgeous tan affect, year-round, and without the sun damage!

Use this natural bronzing cream as an everyday face bronzer, buffing into skin to define your best features. Apply on-the-go with the sleek mirrored packaging, without the plastic.

Made in Italy
7.5g / 0.26oz Glass jar + aluminium lid
Expiry 12m after opening

PRODUCT BENEFITS

- Natural streak-free bronze
- Hydrating & long-lasting formula
- Layerable: use sparingly for a natural glow, build for full bronze coverage
- Suits sensitive and acne-prone skin types

HOW TO APPLY

1. Apply balm with Eco Vegan Multipurpose Brush or a damp All-Beauty Bio Sponge on to the skin.
2. Choose to apply where the sun naturally hits your face - top of the forehead, nose & high points of your cheeks, and blend upwards & outwards.
3. Add more bronzer for deeper colour and to define and sculpt the face.
4. For extra sun-kissed glow, finish with Vanilla Highlighter Balm on the high points of the face for long-lasting skin radiance.

HERO INGREDIENT

Cacao - A small evergreen species native to tropical South-Central America cultivated for its seed, (the source of chocolate!). The seeds are dried, roasted, and pressed - the cacao seed butter is then extracted.

- High in fatty acids & vitamin E

SHORTLISTED!
Cosmopolitan 2023 Summer Beauty Awards

PRODUCT BENEFITS

- Non-GMO gluten-free corn
- Absorbs shine
- Sets foundation
- Perfect for sensitive skins
- Refills into eco makeup wheel
- Truly sustainable beauty

HOW TO ASSEMBLE

You will receive 2 items - a box containing your new eco makeup-wheel refill case (which has 3 parts), and a corn setting powder in a separate envelope.

1. Gently pull the makeup-wheel lid & base apart.
2. Place corn powder refill in the base tray.
3. Gently place the makeup-wheel lid on top.
4. Turn the makeup-wheel lid clockwise so the inner ring is secured to keep the corn powder in place.
5. Gently pull (not twist) the lid off & enjoy (the inner ring should be left holding your refill in place).
6. When your powder runs out, simply reuse your makeup-wheel & refill with a new powder.
7. The makeup-wheel lid doubles as a mirror!

HOW TO APPLY

1. Use with our Eco Vegan Kabuki Brush or Eco Vegan All-beauty Brush.
2. Form circles with the brush in the powder and with the same movement, apply all over your face, with special attention to the T-zone.
3. Blend lightly and brush off any excess powder.

HERO INGREDIENT

Native corn starch - extracted from the grain of the plant native to Mexico.

- Highly absorbent - absorbs excess oil from skin
- Anti-inflammatory
- Sensitive safe, gluten-free
- Soothes sensitive skin
- Sets makeup
- Remedy for skin problems
- Provides a matte finish

ALL INGREDIENTS

Mica, octyldodecyl stearyl stearate, magnesium stearate, cetearyl ethylhexanoate, silica, caprylyl glycol, zeamays (corn) starch, magnesium myristate. May contain +/- CI 77491, CI 77492, CI 77499 (iron oxides).

Pressed powder made with non-gmo rice for best natural colour and a healthy glow. Super-fine, smooth texture that adheres to the face and allows the skin to breathe. Can be layered and worn on a fresh face or over foundation. A versatile colour duo that suits many makeup styles and complexions, packaged in a sleek compact with a magnetic insert to refill your beloved bronzer.

Made in Italy
10g / 0.35oz Refill + 100% Aluminium packaging
Expiry 12m after opening

PRODUCT BENEFITS

- Enriched with non-gmo rice and squalene
- Super-fine, smooth texture
- Multitasking use as a blush, bronzer & eyeshadow

HOW TO APPLY

1. Our natural powders can be worn on a clean face or over foundation.
2. To apply, take our Eco Vegan Kabuki Brush and swish over both sides of the colour palette. This will give a perfect blend of natural colour.
3. Shake off excess powder before applying to the cheeks.
4. Next, add the coloured powder to other areas such as the eyelids, forehead, chin. Use careful application here for a subtle look.
5. These powders are made to be layered – you may like one application or more, depending on your look.

HERO INGREDIENT

Native rice starch (non-gmo) – extracted from the grain, originally from China.

- An emollient, exfoliant and anti-ageing
- Leaves a silky shine-free finish
- Oil-absorbing
- Soothes inflamed skin
- Sensitive to dry skin
- Allows skin to breath
- Tightens skin and improves elasticity
- Skin is exfoliated and smoothed, while remaining breathable under the powder

ALL INGREDIENTS

natural almond
mascara

natural stand out lashes

Essential natural mascara, the star product that launched the Ere Perez brand in 2002. This little beauty is famous! Smudge-proof, water resistant, long-lasting. Kind to all eyes, even sensitive ones and contact lenses. Staple beauty product, no fuss. Perfect for all-day wear. Best glossy black lashes, naturally. Everyone loves this – you will too.

Made in Mexico
10ml / 0.35oz Tube + wand
Expiry 6m after opening

PRODUCT BENEFITS

- Enriched with almond oil and mamey oil
- Moisturises lashes
- Encourage lash growth
- Water resistant, long lasting
- Friendly to sensitive eyes

HOW TO APPLY

1. Apply mascara as the last step in your eye makeup routine.
2. Dip wand into container, wipe excess mascara on the rim and apply from roots in upward strokes to the underside of your lashes. Apply several layers on top lashes to build colour, and a single layer to bottom lashes.
3. Remove mascara with our Ginkgo Micellar Water or Fig All-beauty Jelly.

HERO INGREDIENT

Sweet almond oil – extracted from the kernel of the almonds seed from the plant that originated in China & Central Asia.

- Contains vitamins A, E, fatty acids, magnesium & calcium
- Moisturises & strengthens lashes
- Encourages lash growth
- Water-resistant
- Long-lasting
- Good for sensitive eyes & contact lenses
- Hydrated and healthy lashes

ALL INGREDIENTS

Cera alba (beeswax), copernicia cerifera (carnauba) wax, elaeis guineensis (palm) kernel wax, glycine soja (soybean) seed oil, prunus amygdalus dulcis (sweet almond) oil, calcium stearate, isoamyl laurate, pouteria sapota seed (mamey) oil, persea gratissima (avocado) oil, camelia oleifera (camelia) seed oil, palmitic acid, tocopheryl acetate (vitamin E), glyceryl caprylate, glyceryl undecylenate. May contain +/- CI 77491, CI 77499 (iron oxides), CI 77510 (ferric ferrocyanide – *Mauve only*).

WHAT YOU'LL LOVE

waterproof mascara

natural vegan stand out lashes

Mascara made with mamey and avocado oils to stimulate growth, regenerate and strengthen lashes. Waterproof, smudge-proof, full black coverage and amazing 24-hour wear. Perfect for day or night to suit your busy lifestyle. Made with the highest quality natural ingredients and friendly to sensitive eyes. For a natural look or high glamour. A unique waterproof mascara to rely on.

Made in Mexico
10ml / 0.35oz Tube + wand
Expiry 6m after opening

PRODUCT BENEFITS

- Enriched with avocado, camelia seed oil & cacahuananche oil
- Waterproof
- Long-lasting
- Smudge-proof
- Vegan
- Moisturises lashes
- Encourage lash growth
- Friendly to sensitive eyes

HOW TO APPLY

1. Apply mascara as the last step in your eye makeup routine.
2. Dip wand into container, wipe excess mascara on the rim and apply from roots in upward strokes to the underside of your lashes. Apply several layers on top lashes to build colour, and a single layer to bottom lashes.
3. Remove mascara with our Fig All-beauty Jelly.

HERO INGREDIENT

Avocado oil – extracted from the dehydrated avocado fruit, native to Mexico.

- Contains vitamins B, E, antioxidants and fatty acids
- Adds natural shine
- Moisturises lashes
- Promotes length & condition
- Adds moisture to dry lashes
- Lashes are longer and stronger, and less likely to damage

ALL INGREDIENTS

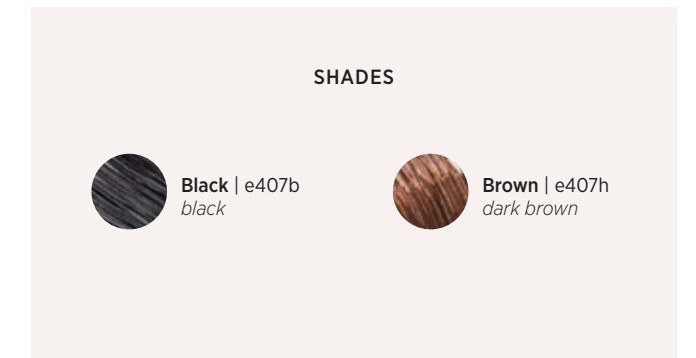

Copernicia cerifera (carnauba) wax, glycine soja (soybean) seed oil, elaeis guineensis (palm) kernel wax, diheptyl succinate, capryloyl glycerin/sebacic acid copolymer, licania arborea (cacahuananche) oil, persea gratissima (avocado) oil, calcium stearate, prunus amygdalus dulcis (sweet almond) oil, camellia oleifera (camelia) seed oil, pouteria sapota (mamey) seed oil, palmitic acid, tocopheryl acetate, glyceryl caprylate, glyceryl undecylenate, CI 77491 (iron oxide red)*, CI 77499 (iron oxide black). *Brown only

The world's first natural waterproof mascara is now available in a rich chocolate brown.

A makeup bag must-have for smudge-proof, tears-proof and waterproof lashes. The Avocado Waterproof Mascara contains nourishing avocado and mamey oils to help regenerate and stimulate lash growth and give lashes a glossy sheen, without nasty chemicals.

A vegan-friendly formula made without PFAS, parabens and phthalates makes it the best in natural makeup for sensitive eyes. It's no wonder it's a beauty editor and beauty buyer favourite mascara for limitless length.

Nourishing lashes with the power of plants since 2005.

- Moisturises lashes & eyebrow
- Encourage lash & eyebrow growth
- Leaves lashes and eyebrows smooth & shiny
- Grooms brows
- Friendly to sensitive eyes
- Multitasking for lashes & brows

HOW TO APPLY

- 1 Apply mascara as the last step in your eye makeup routine.
2. Dip wand into container, wipe excess mascara on the rim and apply in upward strokes to the underside of your lashes. Brush onto brows in outward strokes for a defined brow look.

aloe gel
lash & brow mascara

HERO INGREDIENT

Aloe gel – comes from inside the leaves of the plant, native to Africa and known by the Ancient Egyptians as ‘the plant of immortality’. *Fun-Fact:* Aloe vera has a chemical makeup similar to that of keratin. It rejuvenates hair with its own nutrients, giving it more elasticity and preventing breakage.

- Contains proteolytic enzymes, vitamins A, B, C, E, 96% water, proteins and minerals
- Anti-inflammatory
- Protects against free radicals
- Natural oxygenator – promotes lash & eyebrow growth
- Moisturises & strengthens lashes
- Conditions lashes & eyebrow hairs
- Maintains healthy brows and lashes

ALL INGREDIENTS

Aqua (water), aloe barbadensis (aloe vera) gel, ethyl alcohol, cellulose gum, glycerin, hydrolyzed corn protein, adenosine, magnesium ascorbyl phosphate, carnitine, panthenol, potassium sorbate.

makeup
eyes

define eyes naturally

Soft natural eyeliner pencil. A soothing formulation of oils including jojoba, known to nourish your skin and condition your lashes. Gentle on eyes, suitable for sensitivities. Frame eyes or smudge for a smoky look. Easy application.

Made in Italy
1.1g / 0.04oz Wooden pencil + aluminium lid
Expiry 12m after opening

WINNER!
Cosmopolitan 2023 Clean Beauty Awards

PRODUCT BENEFITS

- Enriched with jojoba oil and coconut oil
- Known to nourish skin and eyelashes
- Soft formula
- Good for sensitive eyes
- Multitasking for frame or smudge smoky looks

HOW TO APPLY

1. First, sharpen eye pencil with our Eco Sharpener to achieve a round point for a smooth application.
2. To apply eye pencil to the top eyelid, make dots along the lash line where the lashes meet the skin.
3. Next, connect the dots in a sweeping line along the eyelid. For a smudged effect use our Eco Vegan Smudge & Shade Brush over line to blur edges.
4. Apply one or more layered lines for a darker look.
5. For lower eyelid, apply on the inner rim as close to the lashes as possible.

HERO INGREDIENT

Jojoba seed oil - produced from the seed of the jojoba plant native to Arizona/California. *Fun-Fact:* Our skin is made up of natural wax esters (called sebum) which lock in moisture to keep skin looking healthy and hydrated. As we age sebum production decreases, meaning fine lines, dry skin and sagging occurs. The Jojoba plant actually produces wax esters identical to our very own sebum.

- Penetrates deep into the skin, essential fatty acids, powerful antioxidants and vitamins
- Fights premature ageing, reduces fine lines
- Rejuvenates skin & regenerates skin cells
- Deeply moisturising
- Wear eyeliner without irritating skin!

brow pencil

natural perfect brows

We love almond oil so much we made our new favourite product featuring the nourishing healthy ingredient. The oil protects hairs and nourishes the skin underneath and surrounding your brows. Made to perfect your brows, this pencil is unique in its formulation and smooth finish. Fill in gaps with light application of this pencil – your eyebrows will look better, but in a natural way. Features an inbuilt grooming brush to tame fly-away hairs and neaten brows. They say that eyebrows frame the face, so give yours the right attention with our perfect natural pencil.

Made in Italy
1.1g / 0.04oz Wooden pencil + plastic lid with nylon bristles
Expiry 12m after opening

PRODUCT BENEFITS

- Enriched with almond oil and jojoba oil
- Oils protects & nourishes hair & skin in the brows
- Features an inbuilt grooming brush

HOW TO APPLY

1. Sharpen your pencil before use with our eco sharpener.
2. Taking the sharpened end of the pencil, gently fill in any gaps in your eyebrows, starting at the end above the inner eye.
3. Smooth out the look of the eyebrow from inner eye to arch (in line with the far side of the iris).
4. Next, use a lighter application of the pencil to repeat the process where the brow curves to the end of hair growth.
5. We recommend cautious application, comparing both eyebrows as you progress for consistency.

HERO INGREDIENT

Sweet almond oil – Extracted from the kernel of the almonds seed from the plant that originated in China & Central Asia.

- Contains vitamins A, E, fatty acids, magnesium & calcium
- Encourages brow growth

lip pencil

sublime lip pencil for a perfect pout

Sublime pencil to line lips in creamy long-lasting formula. Boosted with lip-loving oils to nourish while also adding beauty pro definition. These nifty liners give a smooth line and a plump look to your lips. In three velvety matte shades to wear alone or with other gorgeous Ere Perez lip products. Starring coconut oil and vitamin E to condition & repair skin, making this an unbeatable natural formula your lips will adore.

Made with wood and an aluminium lid, this beauty is 100% plastic free. This is the most sustainable lip pencil we could create!

Made in Italy

1.1g / 0.04oz Wooden pencil + aluminium lid

Expiry 12m after opening

PRODUCT BENEFITS

- Creamy long-lasting formula, matte finish
- Rich in antioxidants
- Encourages youthfulness
- Deeply hydrating & conditioning
- Multipurpose lip line & lip stick
- 100% Plastic free

HOW TO APPLY

1. Sharpen your pencil with our fab Eco Duo Sharpener.
2. Outline top lip and bottom lips.
3. Gently smudge in, before applying your favourite Mango Lip Honey gloss, or lip colour.

HERO INGREDIENT

Açai fruit oil - Extracted from the berry of the acai palm tree native to the Brazil.

- Has anti-inflammatory and anti-microbial properties
- Packed with antioxidants
- High in nutritious fatty acids, contains vitamins A & C
- A powerful anti-ager, aiding the skin's regeneration
- Soothing, absorbing quickly into the skin relieving dryness
- Boosts collagen, firms the skin/lips.

ALL INGREDIENTS

Octyldodecyl stearoyl stearate, cocos nucifera (coconut) oil, c10-18 triglycerides, copernicia cerifera (carnauba) wax, hydrogenated vegetable oil, mica, silica, polyglyceryl-3 diisostearate, euterpe oleracea (açai) fruit oil, oryzanol, glyceryl undecylenate, tocopherol (vitamin E). May contain +/- CI 77891 (titanium dioxide), CI 77491, CI 77492, CI 77499 (iron oxides), CI 15850 (D&C red 6).

Glossary

ingredients glossary

a

Acai (euterpe oleracea) fruit oil

From the berry of the acai palm tree native to the Brazil. A powerful anti-ager packed with antioxidants, vitamins A & C to boost collagen and firm skin. Anti-inflammatory and anti-microbial properties.

Alfalfa (medicago sativa) leaf extract

Sourced from the perennial flowering plant, part of the pea family. Properties include vitamins A, B1, B6, C, D, E, K, iron, anti-oxidants, chlorophyll, silica and amino acids.

Allantoin

In its organic form, allantoin is found in several plants, such as sugar beet, comfrey, chamomile, tobacco seed, and wheat sprouts. A popular source of allantoin is the extract of comfrey, a species of herb native to Europe. Allantoin is an effective anti-irritant for the skin, calming and soothing sensitive areas. It has been used to effectively help promote wound healing, and because it helps with cell regeneration.

Aloe (aloe barbadensis) gel

Aloe vera is a plant full of vitamins, minerals, enzymes and essential amino acids. It is a natural oxygenator and is considered to be effective with aiding cellular renewal. It contains the hormones gibberellins and auxin which have strong anti-inflammatory properties.

Apricot (prunus armeniaca) kernel oil

Apricot kernel oil is cold-pressed from the dried seeds of the fruit of the plant, thought to have originated in Armenia. It is a gentle, nourishing oil that can help to rehydrate dry and oily skin. It contains high amounts of vitamins and antioxidants that help to retain skin's elasticity and condition.

Aqua (water)

Argan (argania spinosa) kernel oil

Argan oil is extracted from the kernels of the argan tree, indigenous to Morocco & south-west Algeria. The oil is full of fatty acids, omega 3 and 6, vitamin E and strong antioxidants.

Arnica (arnica montana) flower extract

Arnica is an herbaceous plant in the sunflower family, commonly grown in Mexico and used in traditional medicine for thousands of years. It is considered to have healing and anti-inflammatory properties.

Ascorbic acid (vitamin C)

A potent antioxidant with known anti-aging and anti-inflammatory properties. It is thought to be vital for collagen production, skin health, damage repair, brightening effects and improving pigmentation.

Ascorbyl palmitate

It is formed by an ascorbic acid and palmitic acid, and it is another form of vitamin C.

Australian blue cypress (callitris intratropica) wood oil

Produced via steam distillation from the wood of the tree, indigenous to Australia. It is antibacterial and anti-inflammatory, aiding in calming skin sensitivities. It is deeply moisturising and keeps skin hydrated.

Avocado (persea gratissima) seed oil

Avocado oil is edible oil pressed from the avocado fruit. Full of vitamins A, D and E.

b

Bakuchiol

Extracted from the seeds and leaves of the Psoralea corylifolia plant, also known as the babchi plant. A potent antioxidant so can protect against free-radical damage. Soothing properties, a good option for sensitive or reactive skin.

Bamboo (bambusa arundinacea) stem powder

A very light white powder obtained directly from the stem and leaves of the bamboo plant. It is a natural alternative to plastic scrubs and has a high concentration of silica and is a great moisturiser.

Baobab (adans onia digitata) seed oil

From the wonder tree native to Africa & Australia, the fruit seeds are pressed to produce oil. Full of antioxidants & vitamins A,B,C, plus omegas 3,6,9 and fatty acids. Also has anti-inflammatory properties.

Beeswax (cera alba)

Beeswax is obtained from the honeycomb.

Beeswax (synthetic)

Made from plant-based ingredients so is a vegan alternative to traditional beeswax. Used as a binding agent, can improve the stability & shelf life of products. Helps keep skin moisturised y creating a barrier. Non-comedogenic so will not clog pores. A versatile ingredient that can be used in many skincare formulas.

Beetroot (beta vulgaris) extract

Beetroot is a root vegetable used to create a natural pigment. It is full of antioxidants and minerals such as potassium, vitamin C, calcium, magnesium and iron.

Benzyl alcohol

A naturally occurring colourless liquid with a mild, pleasant aroma. Used in cosmetics and skincare as a preservative, solvent, and fragrance component. Can also improve the sensory-feel of products.

Bergamot (citrus bergamia) oil

Bergamot oil is an essential oil, cold pressed from the bergamot orange. It is considered to have antiseptic and antibacterial properties.

Biosaccharide gum-1

Biosaccharide gum-1 comes from fruit-derived sugars. It is useful in helping water bind to the skin. This keeps skin hydrated and moisturised.

ingredients glossary

Bis-diglyceryl polyacyladipate-2

A lanolin substitute - gives better stability to emulsions & has a softer consistency. Softens & smoothes skin & maintains good skin condition.

Blue agave (agave tequilana) nectar

Blue agave nectar is extracted from a native Mexican plant leaf. It's considered to have antibacterial properties & contains vitamins C, B1, B2, C, D, K, & provitamin A. Used topically to help moisturise skin, soothe inflammation, & tighten.

Buriti fruit (mauritia flexuosa) oil

Buriti fruit oil is extracted from the fruit of the moriche palm. The oil is said to provide the richest known source of beta-carotene. Also contains essential fatty acids, vitamin E & C, antioxidants. It is considered helpful in keeping skin supple and hydrated, improves elasticity and combats skin conditions.

c

C10-18 triglycerides

C10-18 triglyceride is a tri-ester of glycerin; a sugar-based alcohol and humectant that occurs naturally in vegetable lipids.

C12-15 alkyl benzoate

This ingredient acts like an emulsifier to avoid the separation of ingredients inside the arnica concealer's formula.

C18-36 acid triglyceride

Used as an emollient to soften & smooth skin and maintain good skin conditioning. Also a texture enhancer.

Cacahuananche (licania arborea seed) oil

Cacahuananche oil is a tree belonging to the Chrysobalanaceae family. Used for its strengthening and nourishing properties for hair.

Calcium sodium borosilicate

It is made from Silica, a white powder occurs naturally throughout various elements of nature such as rocks or sand. It is used as a considered as bulking agent and shimmering powders.

Calcium stearate

Derived from diatomaceous earth and limestone.

Calcium gluconate

Calcium is an essential mineral for the body. A small amount of research shows calcium gluconate may be a good skin-soothing and restorative agent when applied topically.

Calcium sulfate

Calcium sulfate is a naturally occurring calcium salt. It is opacifying, and allows the cohesion of different cosmetic ingredients. It keeps skin in good condition and can tighten pores.

Calendula officinalis extract

Derived from the calendula flower and is considered to have anti-inflammatory, soothing and healing properties.

Camellia (camellia oleifera) seed oil

Camellia seed oil is sourced from the seed of the flowering plant. The oil absorbs quickly into the skin because its molecular weight is a near-match for human skin. Rich in oleic acid, omegas, vitamins and contains more antioxidants than almost any other botanically derived oil.

Candelilla (euphorbia cerifera) wax

Candelilla wax is derived from a shrub native to Mexico. The wax helps keep the skin moisturised.

Caprylic/capric triglyceride

Derived from coconut. It is considered to have smoothing and replenishing properties.

Caprylyl glycol

Caprylyl glycol is a plant-derived humectant and skin conditioning agent that lends moisture.

Carnauba (copernicia cerifera) wax

Carnauba wax is extracted from the leaves of a Brazilian tropical palm tree. Low comedogenic (does not clog pores). Softens & smoothes skin, skin conditioning.

Carrot (daucus carota sativa) oil

A root plant used as a natural pigment. Considered to have anti-aging and sun protection properties.

Carrot (daucus carota sativa) root extract

Carrot root extract is high in carotenes, vitamin E, and vitamin A. Considered beneficial to prevent or even reverse skin damage caused by UV radiation, and to protect the skin against premature aging.

Castor (ricinus communis) oil

Derived from the seeds of the castor oil plant. Gives cosmetics a soft, supple texture and helps to moisturise.

Cedarwood (atlas cedrus atlantica) wood oil Oil extracted from the wood of the tree occurring in Morocco. Its properties are antiseptic and cleanses skin, reducing toxins in the skin and helping with dry skin. Gives a fresh clean feeling to the skin.

Cetyl alcohol

Cetyl alcohol is a flaky, waxy, white solid often derived from coconut, palm, or vegetable oil. As an emollient, cetyl alcohol can soften and smooth flakiness on the skin, which helps to reduce rough, dry skin. Emollients are also occlusive agents, which means they provide a layer of protection that helps prevent water loss from the skin.

ingredients glossary

Chamomile (matricaria recutita) flower extract
Extracted from the German Chamomile flower and contains a higher concentration of key active ingredients than the Roman Chamomile flower. Anti-inflammatory, wound-healing, a natural moisturiser.

Chamomile (anthemis nobilis) flower oil
Distilled from dried flower heads of Roman Chamomile. Reduces skin inflammation and irritation. Contains minerals which replenish and rejuvenate skin.

Chia (salvia hispanica) seed oil
Obtained from the seed of the flowering salvia hispanica plant. Considered the richest botanical source of omega-3 fatty acids found in nature. Contains vitamins and essential fatty acids. Fights skin irritation and hydrates skin.

Chlorphenesin
Chlorphenesin is an ingredient used as a preservative with antimicrobial and antibacterial properties.

Chlorophyllin-copper complex
Chlorophyllin-copper complex is from naturally derived chlorophyll. It's a source of antioxidants and also known to help expedite the healing of wounds.

CI 12085 (D&C red 36)
Red pigment used for cosmetics.

CI 15850 (D&C red 6)
Red pigment used for cosmetics.

CI 42090 (FD&C blue 1)
Brilliant blue pigment used in cosmetics.

CI 45410 (D&C red 27)
Red pigment used for cosmetics.

CI 77007 (ultramarine blue)
Blue pigment used in cosmetics.

CI 77019 (mica)
Mica is a natural component of sand that is rich in silica. The silica-rich composition of mica is thought to support the formative processes in the connective tissue and bring vitality to the skin. It is used as an alternative to talc. Mica can have two different functions within a formulation – a filler and a pigment. When used as a filler it is normally listed at the top or middle of the formula and it is just required to be listed as “mica”. When used as a pigment, it must be listed at the bottom of the formula regardless of the percentage in the formula. It normally goes after the “may contain” and requires having the colour index number (CI) if going to the EU.

CI 77491 (iron oxide red)
Red iron oxide pigment used in cosmetics.

CI 77492 (iron oxide yellow)
Yellow iron oxide pigment used in cosmetics.

CI 77499 (iron oxide black)
Black iron oxide pigment used in cosmetics.

CI 77510 (ferric ferrocyanide)
Dark blue pigment used for cosmetics.

CI 77742 (manganese violet)
Violet pigment used for cosmetics.

CI 77891 (titanium dioxide)
Titanium dioxide TiO ₂ is a naturally occurring mineral-based pigment, derived from the mineral ore bauxite that is formulated into a creamy white ointment. It provides broad UVA and UVB sun protection when applied externally. <i>*TiO2 may be an occupational hazard when inhaled. The TiO2 used in our formulations is pigment grade; we do not use nano size particles.</i>

Clove (eugenia caryophyllus) flower oil
Clove flower oil is a clear or pale-yellow liquid produced from the flowers of the clove (Syzygium aromaticum) tree. Rejuvenating and stimulating properties helping to make skin look radiant. Great for dry skin.

Citric acid
A natural substance produced in various amounts by all types of citrus fruits. Rich in antioxidants, considered to brighten skin, correct pigmentation and act as an exfoliating agent.

Cocoa (theobroma cacao) seed butter
A small evergreen species native to tropical South-Central America cultivated for its seed, (the source of chocolate!). It has emollient properties (soofterns & soothes skin) & provides deep hydration - suitable for especially dry & sensitive skin. High in fatty acids. Comedogenic (likely to cause pimples on acne prone skin).

Coco-caprylate/caprata
Coco-caprylate/caprata is a skin-conditioning agent naturally, derived from coconut oil it helps smooth and hydrate skin.

Coconut (cocos nucifera) oil
Coconut oil from the dried kernel of the coconut on the palm tree. Antibacterial, anti-fungal properties that are thought to hydrate, soothe sun damage, heal and promotes skin repair.

Cocoyl proline
Cocoyl proline is a mixture of coconut fatty acids and the amino acid proline, this ingredient may be plant-derived or synthetic. It functions in cosmetics as a hydrator and conditioning agents.

Copper gluconate
An essential trace mineral found in many foods and supplements. Natural astringent properties to tighten pores. Stimulates skin’s natural collagen & elastin production. Anti-inflammatory and antioxidant.

Cornflower (centaurea cyanus) flower water
This extract works as an anti-inflammatory, skin conditioning and astringent.

Cranberry (vaccinium macrocarpon) fruit extract
Cranberry fruit extract is obtained from the fruit. Properties include vitamin C, antioxidants and antiseptic. The oil is considered effective in fighting free radicals and signs of aging.

Cucumber (cucumis sativus) fruit extract
Cucumber extract from the water-rich fruit. Contains caffeic acid, silica and vitamin C. Considered helpful in revitalising, hydrating and soothing skin. Known to assist in reducing puffiness under the eyes.

d

Dehydroacetic acid
The principal function of dehydroacetic acid is to work like a soft preservative in the cosmetics formulations.

Dicalcium phosphate
Calcium salts. Reduces the density of cosmetics – reduces the transparency/translucency.

Dicaprylyl carbonate
A skin conditioner that helps smoothing the skin providing a protective film.

Diethylhexyl syringylidenemalonat
Ingredient for protecting cosmetics from deterioration. Known to be skin protectant and antioxidant properties.

ingredients glossary

Diheptyl succinate & capryloyl glycerin/sebacic acid copolymer
A biodegradable liquid that mimics properties of silicone emollients.Is a significant plant-derived alternative to dimethicone (silicone). The ingredient is derived from castor oil and coconut oil.

Dimer dilinoleyl dimer
It is synthesised from plant-based alcohols and is often used as an alternative to the animal-derived lanolin.

Disteardimonium hectorite
A modified clay compound which is a highly effective stabiliser & viscosity control agent in cosmetics. Also used as a thickening agent.

e

Ethylhexyl palmitate
Obtained by esterification from coconut oil and palm oil. Often used as a plant-derived alternative to oil-based silicones. Improves look of skin by helping reduce moisture loss from its upper layers. As a solvent, it helps solubilize other ingredients, helping active ingredients more readily penetrate skin. Comedogenic (likely to likely to cause pimples on acne prone skin).

f

Frankincense (boswellia carteri) oil
Sourced from the Boswellia tree common in India and Somalia. Strong anti-inflammatory effects, immune-enhancing properties, astringent.

Fig (ficus carica) fruit extract
Fig extract is an antioxidant containing B-complex vitamins, vitamin C and essential minerals. Helps with collagen production.

g

Geranium (pelargonium graveolens) flower/leaf/stem extract
Obtained from the geranium plant. Astringent properties, antiseptic and anti-inflammatory properties considered to help tighten skin, promote circulation, boost sun protection and build healthy skin cells.

Ginkgo biloba leaf extract
Also known as maidenhair, ginkgo has been known as a medicinal herb since ancient times. Ginkgo is full of antioxidants, helping to reduce free radicals that can cause signs of aging. It also has natural anti-inflammatory, cleansing and sunscreen properties. A rich source of vitamin E.

Gluconolactone
Gluconolactone dissolves dead skin cells, improves the appearance of fine lines and discoloration, & can help remove excess oil from the skin. Because the molecules in gluconolactone are larger than other acids, they don’t penetrate the skin as deeply, which lessens the likelihood of redness & flaking after use.

Glycerin/glyceryl stearate/glyceryl caprylate
A sugar-based alcohol and humectant that occurs naturally in vegetable lipids.

Glyceryl behenate/eicosadioate
Prepared from glycerin, a sugar-based alcohol and humectant occurring naturally in vegetable lipids.

Glyceryl undecylenate
An ester of glycerin with undecylenic acid which can be derived from castor bean and rapeseed glycerin.

ingredients glossary

Glycine Soja (wild soybean) oil

This oil has a lot of benefits by keeping your skin soft, free of wrinkles and fine lines thanks to its rich concentration of linoleum acid, antioxidants and vitamins. A natural emollient & moisturiser.

Grape (vitis vinifera) seed oil

Grape seed oil is extracted from grape seeds after juicing. Non-aqueous and rich in antioxidants, minerals, protein, vitamin E, it may have natural non-allergenic and regenerative properties.

Grapefruit (citrus grandis) seed extract

Grapefruit seed extract comes from the seed of the fruit, with anti-inflammatory and high in antioxidants to fight free radicals.

Green tea (camellia sinensis) leaf extract

Green tea leaf extract is distilled from the leaves of the sinensis plant. Full of antioxidants; antibacterial and anti-inflammatory properties. Considered effective in fighting the signs of aging, shrinking pores and encouraging youthful skin.

h

1,2-Hexanediol

A preservative and moisture-binding agent. It can increase hydration, protect the integrity of ingredients and work as an emollient to soften skin texture.

Hemp (cannabis sativa) seed oil

Extracted from the seeds of the hemp plant. Properties of omega 3 & 6 fatty acids, vitamin E and antioxidants. Known to conditions dry skin, reduce inflammation, soothe and regenerates the skin's protective layer.

Hyaluronic acid

Delivers lasting moisture, a humectant (moisture-binding ingredient), protects the skin from UVB rays, promotes collagen production.

Hydrogenated coco-glycerides

Derived from the dried kernel of the coconut, a palm originating in the India-Indonesia region. A skin-conditioning agent rich in vitamin E and fatty-acid and is known to be antibacterial and antimicrobial.

Hydrogenated olive (olea europaea) oil

Hydrogenated olive oil acts as a viscosity increasing agent.

Hydrogenated vegetable oil

Hydrogenated vegetable oil is oil from vegetable origin, used to slow the process of water loss from the skin by providing a barrier.

i

Iron oxide

Iron oxides are naturally occurring pigments derived from minerals.

Isoamyl laurate

Used as a pigment disperser, helps colour of foundation (or any other product) uniformly distribute.

Isopropyl palmitate

A natural oil derived from plants.

j

Jasmine (jasminum sambac) flower extract

Derived from the climbing jasmine plant. Lightweight, high in antioxidants, soothing & hydrating to assist in soothing skin imperfections.

Jjoba (simmondsia chinensis) seed oil

Jjoba oil is extracted from the simmondsia chinensis plant. It offers anti-inflammatory properties, it can be used as an antioxidant and is ideal as a moisturiser, especially around the eye area.

k

Kaolin

Kaolin is a naturally occurring white clay mineral. It is oil absorbent making it ideal for shine control.

l

Lactic acid

Lactic acid (plant-sourced) is a powerful alpha hydroxyl acid (AHA) with exfoliating properties. It slows cell water loss, considered to be beneficial for hydration and skin renewal.

Lauroyl lysine

An amino acid derived from coconut oil. Considered to have smoothing and replenishing properties.

Lavender (lavandula angustifolia) oil

Highly versatile oil, calming, soothing, promotes relaxation. Has antiseptic properties.

Lemon (citrus medica limonum) oil

Lemon is considered to be a herbal panacea as it is antiseptic, cleansing, toning and strengthening to connective tissues. It is used as a preservative, pH adjuster and to firm skins elasticity.

Lemon balm (melissa officinalis) flower/leaf/stem extract

Melissa extract belongs to the mint family. Used since Ancient Greek and Roman times, it's also known as lemon balm. It has potent antioxidants that may protect the skin against environmental stressors and fight UV damage. It cleanses, soothes and tightens skin and has anti-inflammatory and antibacterial properties.

Levulinic acid

Acts as an anti-microbial agent, this acid comes form the corn extract.

Lychee (litchi chinensis pericarp) extract

An evergreen tree originally native to China now grown worldwide. Also known as the Chinese Cherry. Antimicrobial, antioxidant, anti-inflammatory, rich in vitamin c, evens skin tone, slows down signs of ageing & is super-hydrating.

m

Magnesium aluminum silicate

A naturally occurring white clay. Unable to be absorbed by the skin due to its large particles.

Magnesium carbonate

A mineral derived salt used as an absorbent or mattifying agent in cosmetics.

Magnesium sulfate

A mineral commonly known as 'epsom salt' and is renowned for its magnesium content. It is easily absorbed into the skin and has anti-inflammatory properties.

Maltodextrin

Maltodextrin has different functions inside cosmetics as moisturiser, absorbent, binding agent, emulsion stabiliser and film-forming agent.

ingredients glossary

Mamey (pouteria sapota) seed oil

Mamey Sapote is a species of tree that is native to southern Mexico. The oil extracted from its fruit seed is used as a hair humectant.

Mandarin orange (citrus nobilis) cold pressed oil

Mandarin orange cold pressed oil comes from the fruit. High in vitamins C, B & E and antioxidants. Considered to be healing, calming, with the ability to brightens skin and treat discolouration.

Mango (mangifera indica) seed butter

Mango seed butter is extracted from the seed of the mango fruit. It is rich in omega 9, vitamins A & C and linoleic acid. Considered powerful in moisturising, encouraging firmer skin and soothing skin.

Methylcellulose

Methylcellulose is a naturally occurring substance obtained from the walls of plants.

Mica

A natural component of sand that is rich in silica. The silica-rich composition of mica is thought to support the formative processes in the connective tissue and bring vitality to the skin. It is used as an alternative to talc. Mica can have two different functions within a formulation – a filler and a pigment. When used as a filler it is normally listed at the top or middle of the formula and it is just required to be listed as “mica”.

Microcrystalline cellulose

Microcrystalline cellulose is refined wood pulp used as a texturiser, anti-caking agent, emulsifier, and bulking agent.

Moringa (moringa pterygosperma) seed extract

Moringa seed extract comes from the seeds of the 'drumstick tree', widely cultivated in parts of Africa and Asia. The plant's extracts and oils have been widely used in traditional herbal remedies for centuries. It is full of vitamin A, which helps encourage skin cell renewal, and vitamin E helps to hydrate and combat dryness. It contains 30 known antioxidants, useful in anti-aging. Moringa has amazing cleansing and skin detoxifying properties.

n

Native corn (zea mays) starch

Corn starch (non-gmo) is extracted from the corn plant. It is a great oil absorbent.

Native rice (oryza sativa) starch

Rice starch (non-gmo) is extracted from rice. It is used as an oil absorbent.

Niacinamide (vitamin b3)

A form of vitamin B3 sourced as nicotinic acid in plant-based foods like nuts, seeds, and green vegetables. Helps repair skin cell damage. Rebalances skin tone. Excellent antioxidant. Helps strengthen skin barrier. Soothing.

O

Oat milk/oat (avena sativa) extract

Oats are part of the grasses family, the Gramineae. The oat is used as an antioxidant, skin-conditioning agent, emollient with anti-inflammatory properties.

Octyldodecanol

Its principal function is to work as a solvent - an alternative for the silicone products. It also has moisturising properties for the skin. Produced from natural non-animal fats and oils.

ingredients glossary

Octyldodecyl stearyl stearate

Octyldodecyl stearyl stearate is made from a naturally occurring fatty acid and stearic acid, found in vegetable fat.

Olive (olea europaea) oil

Olive oil is extracted from olive fruit. It naturally contains mono-unsaturated fats (omega 9) and polyphenols – a potent antioxidant.

Orange (citrus aurantium dulcis) peel oil

Orange peel is cold pressed to obtain the essential oil. Orange oil is valued for its invigorating, relaxing and lightening abilities as well as its antibacterial action and capacity to protect the skin, stimulate skin metabolism and stabilize connective tissue.

Oryzanol

A skin-conditioning agent with a high concentration of antioxidants.

Ozokerite

A naturally occurring fossil wax found near soft shale.

p

P-anisic acid

Principally used as a preservative thanks to its antiseptic properties.

Palm oil/wax/palmitic acid/palm kernel (elaeis guineensis) wax

Palm oil is stable, heavy oil derived from the fruit of the palm oil tree. Rich in saturated fat, essential fatty acids, vitamin E and carotenoids.

**EP supports the production of sustainable palm oil by purchasing Green Palm certificates.*

Palmitic acid

A fatty acid found in palm kernel oil. Helps restore the skins natural barrier function.

Panthenol (vitamin B5)

The alcohol form of pantothenic acid (vitamin B5). When applied topically, panthenol is quickly converted into vitamin B5. It occurs organically from plant sources. Conditions lashes & brows and helps stimulate growth. Penetrates hair fibres to strengthen and create an appearance of fullness.

Papaya (carica papaya) fermented extract

Derived from the fruit & leaves of the plant. High in antioxidants, potassium and vitamins. Fermentation hastens delivery of essential nutrients and enzymes to the skin.

Peach (prunus persica) fruit extract

Peach fruit extract is derived from the fruit. Considered to have skin-brightening, anti-inflammatory and anti-aging effects.

Pentaerythrityl tetra-di-t-butyl hydroxyhydrocinnamate

Primarily a synthetic antioxidant protecting the skin from free radicals & signs of ageing. Also used to help keep formulation ingredients stable and ensures consistency.

Pentaerythrityl tetraisostearate

A lipid-based ingredient derived from the ingredient isostearic acid. This ingredient works as a emollient and viscosity increasing agent, it also is a skin-conditioning agent.

Pentylene glycol

A multi-functional, silky feeling helper ingredient that can do quite many things. It's used as an emulsion stabilizer, solvent and a broad spectrum antimicrobial. Also a moisturizer and helps to make the product feel great on the skin.

Polyglyceryl-3 diisostearate

Polyglyceryl-3 diisostearate (poly=many. glyceryl=glycerin). Glycerin is a sugar-based alcohol and humectant that occurs naturally in vegetable lipids.

Polyglyceryl-5 oleate

An organic polymer composed by 5 glycerins, this ingredient acts as an emulsifier to avoid the separation of incompatible substances.

Polyglyceryl-6 polyricinolate

Polyglyceryl-6 polyricinolate has emulsifying properties that make it useful in skincare formulations as it helps ingredients combine. It is made from natural, plant-based materials.

Polyisobutene

Used as a film former and viscosity controlling agent for skin care products.

Potassium sorbate

Potassium sorbate is a naturally occurring potassium salt. It is used as a preservative.

Prickly pear (opuntia ficus indica) seed oil

Extracted from small black seeds of the cactus native to North and South America and Mexico. A lightweight, fast-absorbing oil known to moisturise and soften skin, stimulate cell growth and brighten skin. Rich in essential fatty acids and antioxidants helping to nourish and repair skin.

Propanediol

A glycol that can enhance the absorption of ingredients into the skin and leaves a smooth finish. Made from the fermentation of glucose; contains no added preservatives, petroleum-based ingredients, or animal by-products.

Propylheptyl caprylate

A synthetic emollient which is used to soften and smooth the skin. Also functions as an anti-inflammatory agent. Fast-spreading and leaves a luxurious, silky-soft after-feel.

Pullulan

A starch syrup made from the fermentation of potato and/or tapioca starch. Popular in cosmetics due to its binding properties and solubility in water.

ingredients glossary

S

Shea butter (butyrospermum parkii)

Shea butter is obtained from the kernels of the nuts of the shea tree. It is rich in saturated and unsaturated fatty acids and vitamin E, giving it skin conditioning and moisturising properties.

Silica

This white powder occurs naturally throughout various elements of nature such as rocks or sand. It is believed that we have high levels of silica in our bodies that reduce as we age. Silica is also a naturally-occurring trace mineral found in plants and can be a vital ingredient in strengthening and supporting nail health. Silica is considered effective in repairing connective tissues.

Sodium acrylate/sodium acryloyldimethyl

The principal function is to act as a emulsion stabilizer preventing that the ingredients inside the product separate.

Sodium anisate

Derived from the fennel plant, native to the southern Mediterranean region. It is included in skincare products for its natural antimicrobial properties helping to prevent bacteria and germs from growing. This ingredient increases the shelf-life of the product, naturally.

Sodium benzoate

Sodium benzoate is a vegan, non-toxic salt compound used as a preservative.

Sodium citrate

Sodium citrate is a pH adjuster.

Sodium cocoyl glutamate

Sodium cocoyl glutamate is made of coconut oil and a sodium salt. It is used as a cleanser and surfactant agent.

Sodium gluconate

Sodium gluconate is a skin-conditioning agent. A safe natural alternative used in cosmetics to protect products from discolouration and rancidity.

Sodium hyaluronate

Delivers lasting moisture, is a humectant (moisture-binding ingredient), protects the skin from UVB rays and promotes collagen production.

Sodium hydroxide

It is an alkaline ingredient that works as a pH modifier and adjuster.

Sodium levulinate

Sodium levulinate is used as a natural preservative in cosmetics. It is also used as a food preservative.

Sodium salicylate

Also referred to as salicylic acid or BHA (beta hydroxy acid). A natural hormone occurring in plants, helps protect against environmental stressors. Has anti-inflammatory & antibacterial properties, and absorbs deeply into skin to assist with clogged pores.

Sorbic acid

In nature, sorbic acid is found in berries. It is used as a preservative for cosmetics.

Sorbitan oleate

It acts as an emulsifying agent, preventing the ingredients inside the products to separate.

Sorbitan olivate

The origin of this ingredient is a chemical reaction between olive oil and sorbitol. Its function is to work as a surfactant and emulsifier agent.

Sorbitan stearate

Used to increase viscosity and stabilise the formula of the cosmetics that use it.

ingredients glossary

Sorbitol/sorbitan isostearate/stearate

Sorbitol is naturally occurring thick, sweet alcohol similar to glycerin. It may provide shine, maintain moisture and is a natural preservative.

Soybean (glycine soja) seed wax

Soybean seed wax is a natural biodegradable wax, used as a substitute for paraffin. It is used for its antioxidant qualities.

Spinach (spinacia oleracea) leaf extract

Spinach leaf extract is extracted from the vegetable. It is high in folate, antioxidants and vital minerals and vitamins. Considered helpful in treating acne, improving skin tone and relieving dryness.

Squalane/squalene

An effective moisturiser, helping absorbtion and trapping moisture without being oily. May provide antioxidant effect.

Sucrose palmitate

A natural emulsifier (helps oil and water to mix). Has a great skin-feel, improves smoothness, emolliency and even hydrates the skin. The name 'palmitate' comes from the French "palmitique" from palmite, the pith of the palm tree.

Sucrose stearate

Sucrose stearate is an emollient used in cosmetics, with the benefit that this ingredient softens and smooths the skin.

Sunflower (helianthus annuus) oil

Sunflower oil is edible oil compressed from the seeds of the sunflower. Rich in unsaturated linoleic and oleic fatty acids and vitamin E, it is used as a skin-conditioning agent.

Sweet almond (prunus amygdalus dulcis) oil

Sweet almond oil is obtained from the dried kernel of sweet almonds. It is rich in saturated fats and essential fatty acids, which gives it strengthening and hydrating properties.

Synthetic beeswax

Made from plant-based ingredients so is a vegan alternative to traditional beeswax. Used as a binding agent, can improves the stability & shelf life of products. Helps keep skin moisturised y creating a barrier. Non-comedogenic so will not clog pores. A versatile ingredient that can be used in many skincare formulas.

Synthetic wax

Improves overall thickness, stability & shelf-life of emulsions and various cosmetic oils. Also used as a binding agent.

t

Tapioca starch

Tapioca starch is derived from cassava roots and is rich in nutrients. It is used in cosmetic formulations as a viscosity controlling agent. It's helpful for hydrating and smoothing skin, and brightening complexions.

Thioctic acid

Alpha-Lipoic Acid (ALA) is a great antioxidant that's also part of the body's natural antioxidant system. Can decrease skin roughness and improve general signs of photoaging statistically significantly.

Tin oxide

This inorganic oxide works as a bulking agent and viscosity controlling.

Titanium dioxide (CI 77981)

Titanium dioxide TiO₂ is a naturally occurring mineral-based pigment, derived from the mineral ore bauxite that is formulated into a creamy white ointment. It provides broad UVA and UVB sun protection when applied externally.

**TiO2 may be an occupational hazard when inhaled. The TiO2 used in our formulations is pigment grade; we do not use nano size particles.*

Tocopherol (vitamin E)

Tocopherol is derived from sunflower seed oil. Natural vitamin E has antioxidant and moisturising properties.

Tomato (solanum lycopersicum) seed oil

Made from pressing the pomace of tomatoes to extract oil from the seeds. High in lycopene, fatty acids and vitamins A and C. Rich in antioxidants.

Tourmaline

Tourmaline is classed as a semi-precious stone and the gem comes in a wide variety of colours

Tribehenin

Tribehenin is composed of glycerin and behenic acid, a naturally occurring long-chain fatty acid. Tribehenin is a glyceryl triester prepared from glycerin and a fatty acid. In cosmetics, it is used as skin-conditioning agent to provide occlusive and emollient properties. It can also be used for other purposes such as make-up, suntan lotion, and deodorant.

u

v

Vanilla (vanilla planifolia) fruit extract

Vanilla is a tropical climbing orchid. It is used as a mask, skin protector, smoother and fragrance ingredient which may help de-stress the muscles in skin.

ingredients glossary

Vegetable (olus) oil

Vegetable oil is an oil of vegetable origin. Considered to have the ability to soften and soothe the skin.

W

White tea (camellia sinensis) leaf extract

Contains high amounts of phenols, which can strengthen both collagen and elastin. Natural antioxidant, anti-inflammatory, anti-ageing, protects from damage. Enhances overall health and appearance of skin.

Witch hazel (hamamelis virginiana) leaf extract

Witch hazel leaf extract is made from the leaves and bark of the shrub. Considered useful in removing excess oil from the skin, is anti-inflammatory, balances skin pH. Known to help reduces acne and tighten skin. Natural healing properties for a clearer complexion.

X

Xanthan gum

Xanthan gum is produced by fermenting a carbohydrate (a substance that contains sugar). In skin care it is used as a thickening agent, texture enhancer, and to stabilize emulsions, which is a general term for mixtures of unlike substances such as oil and water.

y

z

Zinc stearate

Zinc stearate is a fine salt of naturally occurring fatty acid. It is used as a natural colorant.
